# BD HealthSight™ Viewer

BD HealthSight™ Viewer

BD HealthSight™ Viewer is an integrated web-based pharmacy operations dashboard that combines medication management data from BD Pyxis™ dispensing and BD Alaris™ infusion systems into a single view, providing pharmacy with near real time visibility into medication needs and device statuses on the patient floors. This enables pharmacy to proactively address medication management issues before they become problems for nursing and patients. And by providing nursing with visibility to medication dispensing and delivery status, BD HealthSight Viewer helps to reduce the need to locate missing meds and calls to the pharmacy, reducing distractions for both pharmacy and nursing staff.

Enhanced Features of BD HealthSight™ Viewer:

- **BD Pyxis™ ES notifications**: Prioritized visibility to ES system alerts for Pharmacy staff can address device and inventory issues before they become problems for nurses and patients.
- **Dose request visibility**: Pharmacy visibility to patient-specific medication orders requested by Nursing.
- **Delivery tracking:** Provides Pharmacy and Nursing with near real-time visibility into medication status and location to reduce wasted time and effort. *(BD HealthSight Track and Deliver subscription req*uired.)
- **IV status visibility**: Comprehensive visibility for pharmacy and clinicians to see the patient IV status.
- **Continuous infusion visibility**: Provides visibility to continuous infusions status for pharmacy to proactively ensure IV replenishment.

Customer Issues Addressed with BD HealthSight™ Viewer

- **400+ calls per day** from nursing to pharmacy
  (McCluskey, C. Medication Tracking System Improves Drug Delivery Times for Riverside Methodist Hospital. Wolters Kluwer Health: Pharmacy One Source case study, 2010.)
- Distractions contribute to **45% of medication errors**
  (MEDMARX Data Report, U.S. Pharmacopeia, 2008, via Missing Doses: A System at Fault, D O'Neill, 2014.)
- **20 minutes** to track down a missing med
  (CareFusion (2015). Study of Sterile IV Preparation Processes a 578 bed hospital in Florida. CareFusion Internal Study.)
