## RE: BD Vacutainer® Tube Label Update Notification

Dear Valued Customer:

BD Life Sciences is committed to providing the highest standard of product experience to our customers. This communication contains important information concerning planned label changes to selected BD Vacutainer® Tubes. These changes do not impact the design, form, fit or function of these products.

Affected product catalog numbers will be moving from a See-Through labeled tube, where the product specifications are printed directly onto the tube, to a Transparent labeled tube, where the product specifications are printed on an adhesive, transparent label placed onto the tube. This change will support improving quality of printing and legibility of labeling information.

The product catalog numbers affected are listed in the table below. These label changes will become effective on January 1, 2024.

### Current See-Through Tube Labels:

### New Transparent Tube Label:
