

Trace the Future:

Join the BD iDFill™ RFID Integration Tour at CPHI Frankfurt

CPHI
Frankfurt

Experience end-to-end traceability in action with BD iDFill™ Individual Prefillable Syringe Identification*

A unique, hands-on experience to observe the full BD iDFill™ workflow in action from filling to final assembly

CPHI Frankfurt
October 28 - 30, 2025

Tour duration
~60 minutes

2 exclusive
sessions per day

8-12 participants
per tour

Hands-on
demonstrations

Introduction to RFID-based unit-level identification

Gain an overview of the concept and learn how RFID supports traceability, deviation management, and improved compliance.

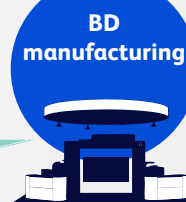

Booth 9.0D30

Assembly in autoinjector

Explore RFID-enabled process control during final device assembly, including individual item reading, bulk reading, and mix-up prevention.

Assembly & Packaging

Filling

Booth 9.0C7

Filling station

Experience RFID-enabled filling on a real small-scale filling line. See the technology in action, not just on slides.

Visual Inspection

Automated visual inspection

Explore a pilot study on automated visual inspection through an expert-led demonstration.

Booth 9.0A92

[Join us on the BD iDFill™ Tour – see it in action, meet the experts, and explore what's next!](#)
